## This Week's Piano Talk

The Time  
Is NowThe Place is No. 46  
Market St., Near New P. O.The High-Grade "Anderson"  
in the A Class Pianos

We sell Pianos by minding our own business. There are five dealers out of seven here who have very fine pianos, but, if you asked the six other dealers what is the finest hammer-felt made, or what wire gives the greatest resonance, or where the finest sounding board spruce is grown and how you can tell the same, and also the difference of piano construction in the cheap and high-grade, etc., they can't tell you.

The piano salesman's talk or his fine playing does not make a bad piano good, or the gloss on the case or fine veneer does not make any part of the soul of the piano.

Buy a piano that will be your chum and friend without the piano doctor going to your house all the time.

The "Anderson" piano is constructed in the best manner and of the finest material.

Come and talk the matter over. You are welcome.

See all the other dealers, then you will be able to judge for yourself. We work single-handed and alone.
